

	<b>WARNING LABELS</b>	Date:
	<b>TOOLBOX / TAILGATE TALK</b>	Presenter:

## Warning Labels

### Introduction

1. Review any accidents or "near accidents" from the past week.
2. Describe the hazards of the work as they relate to your project. Explain or show the Safe way of doing the job.
3. Give the Tool Box Safety Talk

Improper use of ladders can lead to serious injury as a result of falls, and in some cases electrocution. Warning labels provide information on hazards and instruction for safe use, plus they describe ladder weight and height limits that help you choose the proper ladder for the job.

- Always read and follow warning labels on ladders.
- Choose the right ladder for the job.
- Do not choose a ladder with height or weight limits that are less than you need to perform the job.
- Follow instructions for safe use.
- Do not remove labels.
- If labels have become worn or damaged, replace them if possible.
- Remove ladder from service if unsure of suitable condition and usability
